Nadiah Fayez Al-Khloufah

Riyadh, KSA | +966 594 155 606 | alshehrin9@hotmail.com | Portfolio: Click Here

OBJECTIVE

To leverage my skills in cybersecurity and networking to contribute to a forward thinking organization while continuously expanding my professional knowledge.

EDUCATION

- **Arab Open University** — **Riyadh – Saudi Arabia**
  Bachelor of Networking & Security — Oct 2025
  Grade: Good – (Second Class Honor)

- **Princess Norah bint Abdulrahman University** — **Riyadh – Saudi Arabia**
  Diploma of Programming Technology, — Jan 2019
  Grade: Excellent - (First Class Honor)

TRAINING

- **Saudi Federation for Cybersecurity, Programming and Drones** — June – October, 2025
  (Cybersecurity Department - COOP Training , 6 month)

- **Tuwaiq Academy – BootCamp**
  (WEB Solution Development - Bootcamp on AWS) — July - Aug 2024

PROJECTS

- **Cyber Yard(SAFCSP):** Developed an interactive cybersecurity awareness game showcased at the Cyber Yard event to help users detect fraudulent banking sites and understand secure domain verification.
- **PHP Security Lab:** Created a vulnerable web app, exploited a flaw, and implemented a secure coding fix.
- **Python Scanning Tool:** Built a simple scanning program to automate basic vulnerability checks
- **Graduation Project (Python):** Developed a Python-based security application that performs pre-execution file scanning, analyzes potential threats, and assigns risk levels to detect malicious files.

COURSES

- eCIRv2 – Certified Incident Responder (INE Security) — Oct 2025
- eJPTv2 – Junior Penetration Tester (INE Security) — Aug 2025
- Networking Devices and Initial Configuration (Cisco Networking Academy), — May 2025
- AOU (CTF camp) — Jan 2025
- CCNAv7 (Switching, Routing, Wireless Essentials) — Apr 2024
- CCNAv7 (Enterprise Networking, Security, Automation) — May 2024
- CCNAv7 (Introduction to Networks) — Dec 2023
- Institute of Public Administration (Information Security) — Nov 2020
- Barmej (PHP Programming Camp) — Jul 2020

SKILLS

Technical Skills	Soft Skills
Operating Systems & Networking: Linux, Networking Devices and Initial Configuration, CCNA (Routing, Switching, Wireless, Security)	Adaptability & Continuous Learning
Programming & Scripting: Python (for automation and security), PHP, SQL, PL/SQL, C++, HTML, CSS	Teamwork
Security Tools & Methodologies: Penetration Testing (eJPT), Vulnerability Scanning (Nmap, OpenVAS), Packet Analysis, Web Application Security, Security, Cloud Security (AWS)	Communication skills
